**Mission:**

Our mission is to offer our patients premium medical care through the patient centered medical home model of practice. Through collaboration with each individual, specialist, hospital and other healthcare providers, the patient, at all times, remains the focus of care and receives the benefits of a smooth healthcare continuum.

**Vision:**

The vision of Associates in Primary Care Medicine is one of patients enjoying their optimal health status through prevention of health issues, or through management of complex medical problems. Our dedicated staff respects your need for compassionate care, cultural sensitivity, understanding, and confidentiality. This results in our patients feeling respected and genuinely cared for each time they enter the office.

## PCMH Patient Centered Medical Home

**\*Patient-Centered** means **You** are the most important person on your health care team. A **Medical Home** is a medical team working together to provide you with the best possible care.

\*Patients are responsible for providing a complete medical history and information about care obtained outside the practice.

\*Your Primary Care Physician works as the gate keeper to coordinate your care with hospitals and specialists.

\*The Medical Home is a model that emphasizes improving and maintaining healthy lifestyles through evidence-based care.

\*We are here to work with you and provide the support you need.

**Our Nurse Care Manager (NCM), Karen Sciamacco is available to work with at no cost to you.**

### **The NCM can help:**

- You meet health care goals
- Provide Education
- Review Medication
- Assist with Resources

### **We offer the following onsite resources:**

- Nutritionist
- Behavioral Health

### **Specialists:**

- Orthopedics
- Cardiology
- Physical Therapy
- Podiatry
- Gastroenterology
- Lab

### **Our Staff**

Our staff provides each patient with fast and courteous patient centered assistance. Scheduling appointments and answering your phone calls in a timely and pleasant manner. Coordinating consultations, diagnostic imaging, and other services. Follow up on outstanding results from tests, consultations, and imaging, so you have timely results. Helping you identify your self-management goals
